

Helping Businesses Since 1974

For 35 years, we have helped our customers find innovative solutions in a variety of industries. You will find that we are:

- Responsive to your schedule
- Experienced in a variety of industries
- Competitively priced
- Adamant about quality

Our Capabilities at Your Service

Your company gains a tremendous advantage by teaming up with Kasa Industrial Controls. Providing engineering expertise on more than 10,000 jobs and meticulously building custom UL control panels for companies like General Motors, Ford, Nissan and Philips, allows you to receive expertise that is second to none.

Engineering Staff

30+ Employees
 Professional Engineer
 Electrical Engineer
 Computer Engineer
 Electronics Engineer
 Mechanical Engineer
 Draftsman

Programming & Software

PC & PLC Programming
 HMI/OIT Programming
 ODBC Compliant Database
 Proprietary Software
 Siemens
 Rockwell

Services

Custom Controls Design
 Commission & Start Up
 Consulting
 CAD Drafting & Design
 Maintenance & Service
 Factory Automation

Large and Complex Projects are Our Specialty

While others in the industry provide a revolving inexperienced staff, your project receives attention from an experienced project manager and team of engineers who possess more than 400 years of cumulative experience.

Bradbury Company, Inc.

As a provider of coil processing machines to manufacturers, Bradbury relies on Kasa to be an extension of their staff, allowing flexibility in their growth. Kasa's engineers help with establishing industrial standards and installing Bradbury's high speed production lines at their customers' locations.

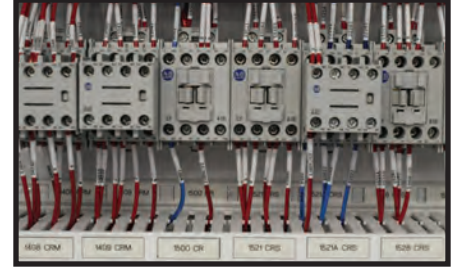

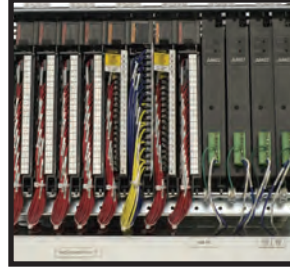

What makes this relationship even more valuable to Bradbury is the one-stop-shop. Teaming controls and panel work with metal fabrication allows Bradbury to streamline certain aspects of their business, resulting in an increase to Bradbury's profitability.

Industry Relationships

- Siemens National Panel Builder (1 of 5 in U.S.)
- Rockwell (Allen Bradley) System Integrator
- Square D Top Panel Builder Program
- WonderWare HMI Software System Integrator
- MotoMan Robot Solution Provider
- ABB Robot System Integrator
- BOSCH/Rexroth System Integrator

Process Expertise

- Automation
- Automatic Identification
- Automatic Storage & Retrieval
- RFID & Bar Code Integration
- Batch Processing & Control
- Blending
- Building Automation & Control
- Dust Collection
- Electro-Mechanical Control
- Energy Management
- Extruder Controls
- Inventory Tracking System
- Load Sharing
- Level Control
- Line Synchronization
- Machine & Process Safety
- Material Handling
- Motion Control
- Packaging
- Pneumatic Conveying
- Process Control Design
- Process Verification System
- Production Routing & Tracking
- Pump & Compressor Controls
- PVC Compounding
- SCADA System Design
- Sortation Systems
- Vision System Design
- Winding & Coiling

Industries Served

- Agriculture
- Appliances
- Automotive
- Bottling & Canning
- Brewing & Distilling
- Baggage Handling
- Bulk Fertilizer Plants
- Bulk Fuel Facilities
- Bulk Material Handling
- Crane & Lift Automation
- Ethanol Production
- Food & Beverage
- Foundries & Castings
- Gas & Oil
- Glass Production
- Feed & Grain Storage
- Feed Mills
- Fiberglass
- Food Processing
- Metal Plating
- Mining
- Petro-Chemical
- Pharmaceutical
- Power Plants & Utilities
- Stone, Clay, Concrete & Brick
- Water & Wastewater Treatment

Panel Shop

- UL 508 Certified
- Custom Enclosures
- Quality Control
- OEM Machine Controls
- Motor Control Centers
- Engraving
- Factory Automation Testing

Kasa Customers

- ADM Milling
- Abbott Labs
- Armour Eckrich
- Capital Electric
- Caterpillar
- Davis Electric
- Dearborn Mid-West Conveyors
- Exide Corporation
- Ford
- General Motors
- Kansas Brick & Tile
- Owens Corning
- Philips Lighting
- United Farmers Coop
